2. Bring one garment to school. See what the label says. Does it tell you what the garment is made of?

### Answer the following questions

**1-On what factors does the kind of clothes we wear depend?**

Ans - The kind of clothes we wear depends mainly on the season, the place and the occasion.

**2- How do we get silk from silkworms?**

Ans- To make silk, silkworms are kept in special farms. Their cocoons are boiled to kill the insects. Each cocoon gives one long silk thread.

**3- What is a fibre ? Give three examples of natural fibres.**

Ans- A fibre is a thread like material used to make cloth. Cotton,silk and wool are examples of natural fibres.
