

Social Studies - Lesson 5

In The Sky

Q1. Describe the sun.

Ans. The sun is a huge ball of fire. It gives us heat and light. During the day it shines in the sky.

Q2. What brings rain?

Ans. The grey clouds bring us rain.

Q3. What is lightning?

Ans. The bright flashes of light seen in the sky are called lightning.

Q4. What is thunder?

Ans. The loud sound that is heard after the lightning is called thunder.

Q5. When do we see a rainbow?

Ans. We can see a rainbow when there is sunshine and rain together.

Q6. Describe the moon.

Ans. The moon can be seen in the night. The light of the sun falls on the moon at night. Sometimes we can see the whole of it and sometimes just a part is seen. The moon is made up of rocks.

Q7. What are stars?

Ans. Stars are huge balls of fire. Many of them are bigger than the sun. They look tiny and small because they are very far away.

English Literature – Lesson 5

The Little Pine Tree

Word		Meaning
1. plucked	-	pulled quickly with force
2. needles	-	unlike other trees, pine trees have thin long needle like leaves
3. golden	-	dark yellow colour

Q1. Why was the little pine tree sad?

Ans. The little pine tree was sad because it had long needles for leaves.

Q2. What happened to the little pine tree's gold leaves?

Ans. A man who was walking through the forest saw the shining leaves. He plucked and took them away in his bag.

Q3. What happened to the little pine tree's glass leaves?

Ans. The strong wind broke the little pine tree's glass leaves.

Q4. What did the goat do to the little pine tree?

Ans. The goat ate the little pine tree's green leaves.

Q5. What kind of leaves did the little pine tree finally wish for?

Ans. The little pine tree finally wished for its long needles.
